

LIGHTING

PROMOTE

State-of-the art lighting products that are eco-friendly.

PROMOTE

ECO-FRIENDLY

Madix's state-of-the-art lighting products contain no heavy metals and reduce power consumption. Eco-friendly lights emit virtually no heat or UV rays and consume approximately 50 percent less energy than conventional sources.

LIGHTING

Madix realizes the importance of incorporating energy-efficient lighting into fixtures. Studies show that good lighting has a positive impact on shopping behavior. LED solutions create impactful displays that draw shoppers in. Brighten your shoppers' moods with specially constructed products that illuminate everything from shelves and beams to signs and end caps.

EFFICIENCY

Madix's LED lights, including the LEDge and BEAM lights, have incredibly long lives of 70,000 hours or more. Illuminated displays and a variety of signage attract customers to merchandise while enhancing the in-store experience.
